

The 90th Anniversary of KAMOI
 &
 The 5th Anniversary of "mt"
 Thanks to the support of our customers!!

Our masking tape "mt" is a pioneer which has created a new category

Since the release of mt, it has become extremely well received and it has been used for various different purposes, not only as stationery but also for daily life goods, as we developed various different patterns and fresh design in addition to color variations.

mt attracts people not only because of its colorful colors and patterns, but also because of its simplicity. mt can be cut simply by hand and then pasted.

The aesthetic property of transparent Washi paper is another point. Still another point is the functionality of being able to write letters on mt.

mt provides the "joy of creation" to many people from children to adults.

mt can be used as stationery and decorations for parties and for interior furniture. It is useful in all occasions of our lives.

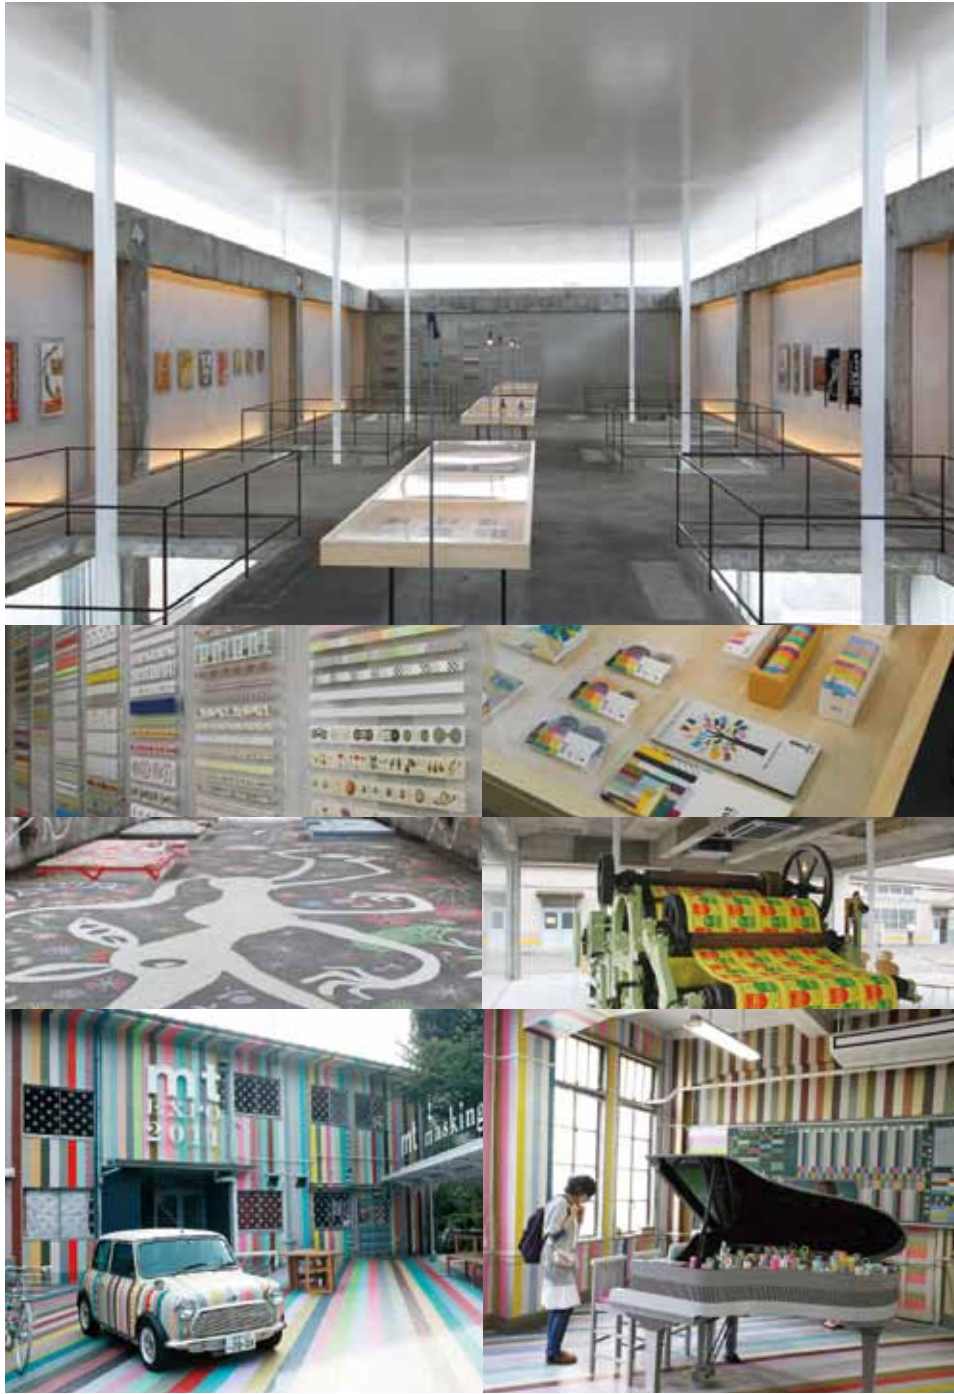

History of mt

We are a specialist of Japanese Washi paper tape, with a history of 90 years

Since Kamoi Kakoshi was established in 1923 we have become a specialized maker of industrial masking tape used in the painting of buildings, cars and furniture. Our expertise has allowed us to survive for a long time as an industrial masking tape maker. An e-mail we received in 2006 was the beginning of mt. The e-mail was from three women in Tokyo, who wished to visit our masking tape plant. A mini-book of them showing masking tapes was outstanding. It was filled with fantastically designed features, transforming our concept that masking tape is a typical product only for an industrial use. When they visited our plant, they asked us to make "masking tapes of different new colors." To meet their request, the development of mt started. Utilizing Japanese traditional and delicate colors, including dark and light colors which best express the characteristics of Washi paper, we tried to realize their image. After a lengthy process of trial and error, mt tape with twenty different colors, like a set of color pencils was completed in 2008.

Kamoi museum & exhibition

"Small tape creates large happiness"

In the spring 2012, "Kamoi museum" opened utilizing an old factory at the site of the company headquarters and factories of Kamoi Kakoshi in Kurashiki, Okayama. Kamoi sponsored an opening event in which huge art work was drawn in warehouses. We also offered guests a plant tour.

Since 2009, Kamoi has held several exhibitions called the "mt exhibition" in Tokyo, Kyoto, Hiroshima, Fukuoka in Japan and Seoul, Taipei and Bangkok so as to expand the possibilities of use of mt.

In 2011 in Shibuya, Tokyo, we opened the "mt Expo."

In these exhibitions, Kamoi presented ideas for new ways to use mt by pasting mt everywhere in the exhibition hall, from walls, floor, furniture and to knick-knacks.

International fair & mt school

"We want to have gracious approaches so that visitors can enjoy appeal of mt"

Since its debut in Paris at Maison & Objet, mt has been exhibited at many international exhibitions, including Ambiente in Germany, so as to inform appeal of mt.

For our customers to enjoy the use of mt for a long time and to feel the joy of creation, we hold workshops called "mt school" with popular creators in Japan and other areas of the world.

We wish mt to continue to be a part of your life to make you happy.

Olle Eksell

Olle Eksell was a graphic designer who also worked as an illustrator, writer and copy writer, he played an active role in Sweden. He was born in 1918 in Dalarna and in 1946 studied at The Art School College of Design in Los Angeles. He created many book binders. In 1956, his logo for the chocolate company Mazetti, "COCOA EYES," catapulted him into fame. In 1965, the logo adorned the top page of "TRADEMARKS AND SYMBOLS OF THE WORLD" published by Mr. Yusaku Kamekura and it continued to be used even after Mazetti was taken over by another company. Since that time, he was an advocate of the belief that "Excellent designs will produce good economical results." The integration of his long experience was the basis of his book, "Design = Economy," which was published in 1964 and has been used as a textbook at designers' schools. He continued to be an energetic creator until his eyesight began to weaken at the age of 75. In Japan, his book titled "Olle Eksell" was published by PIE BOOKS in 2006. He passed away in 2007 when he was 89 years old. In 2010, the animated feature, "Olle Eksell in Motion" in which various characters he created flourished. After it was released it continued to attract public attention and it became available as a DVD movie in 2013.

Lisa Larson

She was born in Harlunda in Smaland region of Sweden in 1931. She entered The Gothenburg Ceramic Art School in 1949 when she was 18, she studied ceramic art there. In 1954, her graduation work at HDK School for Design and Crafts in Gothenburg was discovered by Stig Lindberg, which gave her the opportunity to work at Gustavsberg where Stig was working as the director of art. She played an important role in the start of the golden age of ceramic work in Sweden. In 1979, she left Gustavsberg where she had stayed and worked as a main designer together with Stig Lindberg and Karin Bjorquist for 25 years. During her time at Gustavsberg, she created over 300 works of art. After leaving Gustavsberg, in 1980 she started to work actively on a freelance basis, working for HAVgands, DUKA and jceramic. In 1992, she returned to Gustavsberg and opened her own ceramic studio. The number of collectors is increasing rapidly not only in Sweden but round the world. She has held exhibitions in many places around the world. She still continues her life as a creator. Lisa Larson is now an older lady who is always thinking about what is the "cutest" in the world. She is a ceramic artist representing Sweden and together with her husband, who is a painter, she lives as a ceramic artist in a forest a little far from the city center.
